Need estimate for work entailed with removing two non bearing walls that currently separate 198-B5 from B5A and the associated work outlined below. Removial of a cold water air conditioning unit from B5A. Installing floor tiles to fill the resulting void as well as replacing the tiles currently being used as vents. Estimate whether air handler ceiling vents need to be moved or additional vents installed. Celing mounted lighting reconfigured to match existing lighting in B5. Removial of two ckt breaker switch pannels from one of the walls that will be removed.

These control two vertical power strips on an adjacent wall. Ed Barlow @ 4-3585
